WHAT IS THE MASSACHUSETTS COUNCIL OF ACTIVITY PROFESSIONALS?

The Massachusetts Council of Activity Professionals (MassCAP) is a professional organization of activity coordinators established in Massachusetts in 1975. Activity professionals work in nursing facilities, assisted living facilities, senior centers, senior residences, community agencies, and adult day health programs. Membership in MassCAP is open to anyone interested in improving activity programming, participating in educational opportunities, and exchanging ideas with colleagues in the health care professions. MassCAP works with its membership, with other health care providers, and with regulatory agencies to ensure that activities programs exist which encourage the elderly to lead full and challenging lives.

WHAT IS AN ACTIVITIES PROFESSIONAL?

As activities professionals, we know that the absence of activity leads to boredom, depression and ultimately to deterioration of mental and physical functioning among those we serve. Dysfunction is reversible through engagement in therapeutic programming, enhancement of the activities of daily living, work related activities, and vocational pursuits. Activity professionals assess clients in order to develop and manage programs to assure that elderly persons function at their fullest physical, mental, social, and vocational potentials.
